

Adoption Update: Jackson

Jackson, together with his best friend Jackie, has begun to be integrated into the chimpanzee group being led by Tito. This is a full size chimpanzee group with 17 members. Jackie and Jackson are currently meeting each of the chimpanzees on an individual basis in a separate enclosure from the rest of the group. This increases the likelihood that they will be accepted and also allows the keepers to monitor the introductions to ensure the new chimpanzees are being accepted. Jackson is grateful to have Jackie doing the integration with him, as she is more outgoing when meeting the other chimpanzees.

The team at Tacugama Chimpanzee Sanctuary wishes you a heartfelt thank you for your generous support. With your help, we can continue to provide care for orphaned chimpanzees, like Jackson, and work to ensure a more harmonious coexistence between Sierra Leone's human and chimpanzee populations.

Thank you!

The team at Tacugama 😊
